Program Evaluation
Evaluate the following according to strengths and areas for improvement:

Orientation and preparation - __________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________

Travel - __________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________

Coursework and academics - __________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________

Experiential learning activities (tours, excursions, visits) - __________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________

Housing arrangements - __________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________

Meals - __________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________

Recommendations for improving the program - __________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
Learning Assessment

1. What did you learn about yourself during the study abroad program? Describe your perceptions and responses to new situations.

2. What did you learn from the host culture? What comparisons can you draw with U.S. culture or your personal cultural identity?

3. Evaluate your participation and involvement in the program.

4. Identify the three most important things you learned in the study abroad program.

5. How do you plan to communicate your insights and experiences to others? Do you have new goals or an agenda as a result of your study abroad experience?

Rate the following:

To what extent has your study abroad experience contributed to better understanding yourself?

- Very much  - Quite a bit  - Somewhat  - Not very much  - Not at all

To what extent has your study abroad experience contributed to a broader knowledge of the world?

- Very much  - Quite a bit  - Somewhat  - Not very much  - Not at all

To what extent has your study abroad experience contributed to a greater respect for persons of diverse backgrounds?

- Very much  - Quite a bit  - Somewhat  - Not very much  - Not at all

Do you follow world events in the newspaper or another source?

- Very much  - Quite a bit  - Somewhat  - Not very much  - Not at all

Do you believe your study abroad experience will give you a competitive edge in seeking employment after graduation?

- Very much  - Quite a bit  - Somewhat  - Not very much  - Not at all
