Chemistry Major:
Your Academic Guide to Freshman Year

Think Globally

• Explore opportunities for study abroad, alternative break trips, pilgrimage to Assisi, the Washington Center and service trips.
• Start at the Study Abroad Office or studyabroad@alvernia.edu.

Take the Right Classes

• Review general education, University and Major requirements.
• Be aware of which semester required courses are offered.
• Focus on getting good grades.

Get Good Advice

• Get to know Chemistry faculty members, especially your advisor.
• Visit the Educational Planning Center on the first floor of Bernardine Hall.

Real Life Learning

• Explore opportunities for upcoming internships.
• Utilize skills acquired in First Year Experience.

Make the Right Connections

• Identify peers that support your academic goals.
• Get involved with the Science Association, the Environmental Club, the Pre-Health Professions Club and/or other student clubs, along with community organizations.

Get Ready to Graduate

• Develop a working resume.
• Assess your strengths, weaknesses and interests.
• Begin the process of obtaining all required background checks and clearances.
Chemistry Major: 
Your Academic Guide to Sophomore Year

Think Globally

• Review opportunities for extended learning and, if interested, start planning with the Study Abroad Office.

Take the Right Classes

• Focus on getting good grades.
• Work with your advisor to make sure you're taking the classes you need in the semester they are offered.

Get Good Advice

• Talk to Chemistry faculty and your advisor about your area(s) of interest within the field of Chemistry.
• Stay in touch with the Educational Planning Center.

Real Life Learning

• Explore opportunities for upcoming internships and set a time frame for locating one or more.
• Look into the Alternative Break program.
• Shadow in jobs that relate to your specific interests.
• Look for part-time or summer jobs that relate to your interests.
• Get familiar with the Educational Planning Center's internship database.

Make the Right Connections

• Volunteer for community service.
• Stay involved in clubs and organizations.
• Observe the roles of those in leadership positions.
• Form study groups.

Get Ready to Graduate

• Update your working resume.
• Assess your strengths, weaknesses and interests.
• Complete the process of obtaining all required background checks and clearances.
Chemistry Major:  
Your Academic Guide to Junior Year

Think Globally

• Participate in Study Abroad program.
• Participate in service trips or “May”mester.

Take the Right Classes

• Focus on getting good grades and improving GPA.
• Make sure you’re on track to complete the first two of three research courses if you are not going to participate in an internship.
• Work with advisor to make sure you’re on track to graduate on time.

Get Good Advice

• Talk to faculty members about career opportunities.
• Stay in touch with the Educational Planning Center.
• Get familiar with Vault.com, a career services library available on Educational Planning Center’s website.

Real Life Learning

• Look into the Alternative Break program.
• Shadow in jobs that relate to your specific interests.
• Look for part-time or summer jobs that relate to your interests.
• Get familiar with the Educational Planning Center’s Internship database.

Make the Right Connections

• Assume leadership roles on campus.
• Connect with alumni in your field.
• Attend Chemistry Department events.

Get Ready to Graduate

• Get feedback on working resume from Educational Planning Center.
• Get resume ready for practicum applications and job fair.
• Work on getting recommendations.
• Attend Career Planning opportunities such as job fairs and practice interviews.
• Look for coaching opportunities.
Chemistry Major:
Your Academic Guide to Senior Year

Think Globally

• Look for service opportunities.

Take the Right Classes
