WELCOME FROM THE CHAIR

Welcome to the Criminal Justice Department, located in Bernardine Hall, Alvernia University. The Department is one of several departments in the College of Professional Programs. We offer an undergraduate degree in Criminal Justice Administration. Criminal Justice is one of the larger programs on campus, with approximately 250 students on main campus, the Schuylkill Center in Pottsville and Philadelphia Center in Philadelphia, Pennsylvania.

The Criminal Justice Department is dedicated to providing the theoretical, practical and professional knowledge needed in today’s rapidly changing environment to be successful in the fields of law enforcement, corrections, courts, probation, parole, private security, asset protection, and related service careers. A number of our graduates continue their education by attending law school or graduate school.

The Criminal Justice Program at Alvernia University is unique in that students entering the fall semester of their senior year may attend the Reading Police Academy, which is based on our campus. Students who qualify and attend the Academy receive 15 credits towards graduation, finish their course work in the spring semester and graduate with a degree in Criminal Justice Administration and qualified under Pennsylvania ACT 120 to serve as a police officer in the state.

Our priority as a department is directed toward student success. Our fulltime professors are former practitioners in criminal justice; including, a retired FBI Special Agent, a retired Pennsylvania State Trooper, a retired Probation and Parole Officer, and a former police officer who has a Ph.D. in Forensic Psychology. Our part-time (adjunct) professors are current practitioners in the field of criminal justice; including, an Assistant District Attorney, two Chiefs of Police, and a retired FBI Agent who taught at the FBI Academy in Quantico, Virginia.

Our classrooms are state of the art, with all the modern audiovisual equipment needed to facilitate effective teaching. We have an active Criminal Justice Association, and two honor societies: including Saint Thomas More (local) and Alpha Phi Sigma, the International Criminal Justice Honor Society. Students are encouraged to conduct research in the field of criminal justice, and many complete a senior thesis on a criminal justice topic of their choice. Several of our criminal justice students have presented their research at meetings of the Academy of Criminal Justice Sciences (ACJS) in Cincinnati, Ohio, Baltimore, Maryland, New York, New York, and Dallas, Texas.

Sincerely,

Edgar J. Hartung, M.A., JD
Criminal Justice Department Chair
INTRODUCTION

The Bachelor of Arts Degree in Criminal Justice Administration Handbook is designed to supplement the Alvernia University Catalog and the Alvernia University Student Handbook. It has been prepared with policies specific to the Criminal Justice Administration Department. A copy of the Criminal Justice Administration Handbook is available on the Alvernia University website.

The policies contain essential requirements in the preparation of the criminal justice practitioner academically in accord with the mission of Alvernia University, the outcomes of the Criminal Justice Administration Program and the outcomes proposed by professional criminal justice standards.

Students are required to read this Handbook upon matriculation into the Criminal Justice Administration Program. A signed statement by the student that he/she received a Handbook will be maintained in the student file.
DEPARTMENTAL OVERVIEW

History of the Criminal Justice Administration Program

In 1970 when the statistical projections indicated that many small liberal arts colleges/universities would be forced to close their doors unless their administrators expanded their program to respond to the needs of society, the president and administration of Alvernia University decided to introduce educational programs for various careers and occupations other than education, which was the University’s primary program.

To increase enrollment, the sisters decided to admit male students and to take a chance on a major in criminal justice. In 1974 Sister Mary Pacelli Staskiel, OSF founded the Criminal Justice Administration Program at Alvernia University. At the time, Sister Pacelli was the only woman in the nation to head a criminal justice program at a college. In the first year, a large group of male students enrolled, mostly police officers, who came to be known as “Pacelli’s boys.”

Requiring criminal justice students to complete liberal arts requirements lifted the major out of the pattern of mere police training and was forward-thinking for its time. With the addition of the initial 200 students, mostly male police officers, the college became co-ed overnight. Sister Pacelli was certain Alvernia did the right thing, accepting responsibility for educating men and women for careers in law enforcement while at the same time giving them the critical thinking and decision-making skills to best succeed in such an environment. “If you are going to do a dangerous job,” she explained, “you better know where you stand, know what your strengths are, and know what’s important in your life.”

Vision and Mission

The Vision for the Department is to continue to provide quality education for students as they prepare for professions in the Criminal Justice field and to emerge as a research resource for the larger community. In addition, a long range goal is to develop a Master’s degree program in Criminal Justice.

The Criminal Justice Department is dedicated to providing the theoretical, practical and professional knowledge needed in today’s environment to be successful in the fields of law enforcement, corrections, courts, probation, parole, private security, and the related service careers. Emphasis is placed on preparing the student to enter the professional workplace or continue studies in graduate school. The curriculum is designed to provide students with expert instruction on the most current trends, policies and practices in the field. Students with career goals in law enforcement have the option of attending the Reading Police Academy to obtain Municipal Police Officer Certification (Act 120) as part of their four-year degree without extended time or expense. Students are eligible to apply for the Academy when they have senior status (90 or more credits), completed all required prerequisite courses, permission of the Alvernia University instructor (CJ 470), and successful completion of the application process and acceptance by the Reading Police Academy. Alvernia students attend the Academy during
the fall semester of their senior year. Note: The Reading Police Academy session begins around the first of July and ends in early December.

Alvernia has recruited faculty who are professionals in their respective fields within the Criminal Justice system. In addition to academic accreditation, the full-time faculty has extensive experience in the criminal justice system. In addition, all adjunct faculty members are practicing professionals in the area in which they teach. The strength of the department lies in the philosophy that faculty are, or have recently worked in the specific field of the courses they teach. Class instruction is therefore as current as the events of the day. The curriculum of the Criminal Justice Administration major is innovative and demands intensive classroom learning combined with extensive research and required field experience, including agency practicum.

Purpose and Goals

The purpose of the Criminal Justice Program at Alvernia University is to prepare competent and effective entry level criminal professionals for generalist practice at the baccalaureate level. Alvernia University’s strong liberal arts tradition provides the basis for the criminal justice administration curriculum and infuses the ideals of personal and professional advanced achievement, social responsibility, moral integrity and spiritual development.

The goals of the Criminal Justice Administration program are:
Goal #1: To provide students with the core knowledge and skills necessary to enter criminal justice professions and/or pursue graduate/professional studies.

Goal #2: To provide students with the critical and analytical problem-solving skills needed to achieve academic success.

Goal #3: To provide students with experiential learning opportunities to ensure their competencies in a global and diverse society.

Goal #4: To promote research, service learning, and interdisciplinary collaboration to advocate for social justice and community-building.

The Criminal Justice Administration department strives to prepare students to integrate the values, skills, knowledge and ethical standards of the criminal justice profession. Students learn to critically analyze problems and assist in the formulations of solutions based on Judeo-Christian values, the Alvernia University Student Code of Citizenship, the Criminal Justice Administration Department Code of Ethics, and the Christian humanism of a Catholic liberal arts University.
Assessing One’s Aptitude and Motivation for a Career in Criminal Justice Administration

The Criminal Justice Administration Program provides students with extensive opportunities to assess their motivation for a career in Criminal Justice Administration and their aptitude for the profession in both academic and field education areas. It is through informal discussions with faculty, agency staff, other Criminal Justice Administration students, classroom discussions and seminars, and independent papers or projects, that students are confronted with reexamining their attitudes, expectations and motivations. The Criminal Justice Administration faculty spends time talking with students individually and in small groups about how their aspirations and abilities coincide with their areas of interest in the Criminal Justice Administration field. This continuing emphasis on self-awareness and self-direction is brought about through classroom assignments focusing on one’s own personal aspirations.

Careers in Criminal Justice

Many occupations today require a college-educated individual who can write and speak well, solve problems, learn new information quickly and work well with others on a team. This means that Criminal Justice graduates use their education in a wide variety of fields. Your future career may relate more to your personal career interests, work values and transferable skills than any specific academic major.

Obtaining experiences within a particular field is an important part of preparing for life after college. These experiences can be in the form of internships, part-time jobs or volunteer positions. They allow students to develop knowledge and skills that help solidify their career choice, and improve their chances of employment.

Graduates of the Criminal Justice program are successful in finding employment in a wide range of agencies at local, state, federal and international levels in both the public and private sectors. Many graduates also pursue further education at graduate and professional programs.

documented learning, physical and/or psychological disabilities. It is the responsibility of
the student to contact the Disability Services Coordinator, preferably prior to the beginning
of the semester, to initiate the accommodation process and to notify instructors as soon as
possible so accommodations can be made early on in the semester. Course requirements
will not be waived but, if possible, reasonable accommodations will be made to allow each

Program Policies

Acceptance into the Program.

Students may declare the Criminal Justice Administration major or minor with the
Chair of the Department at any time.

Program policies and criteria have been written to reflect the ability fulfill the
Criminal Justice Administration program requirements and, upon graduation, be prepared
for a generalist entry-level Criminal Justice Administration position. Criminal Justice
Administration students should meet the following criteria:

1. Be able to communicate clearly, both orally and in writing. Composition and
   Research (COM 101) must be completed satisfactorily with a least a “C” grade.

2. Be industrious and have the intellectual capacity to acquire and integrate the
   knowledge, understanding, and skills necessary for competent Criminal Justice
   Administration practice. The students must maintain a “C” average in courses
   acquired outside the program, and grades no lower than a “C” in Criminal Justice
   Administration courses.

3. Students may use the “repeat/delete” option for a Criminal Justice Administration
course only twice in order to achieve a “C” or higher in that specific course. If
students are not successful in achieving a grade of “C” or better in a required
Criminal Justice course they will be dismissed from the program.
4. Have a value system consistent with the humanistic foundation of the Criminal Justice Administration profession and with the scientific knowledge base upon which it rests. Criminal Justice Administration values include the democratic values of respect for the dignity and worth of the individual, self-determination, confidentiality, and equality of treatment. Scientific values include objectivity and respect for the scientific method in acquiring knowledge.

The faculty of the Criminal Justice Administration Program may require that a student discontinue the Criminal Justice Administration program at the end of any semester if performance in the classroom and/or internship is not satisfactory. The Criminal Justice Administration faculty reserves the right to make such judgments based on the aforementioned criteria and evaluations from criminal justice agencies where the student has served as an intern. Failure to function appropriately within the internship setting is documented through evaluations by the internship instructor or academic advisor.

Transferring Credits into the University.

Per University policy, credits can be transferred from other accredited colleges and universities if the courses are found compatible with University and Criminal Justice Administration curriculum. The final decision maker for the transfer of criminal justice courses for inclusion into the Criminal Justice Administration Program at Alvernia University is the Chair of the Department.

Testing out of required Criminal Justice Administration courses is not allowed in the Program. The Criminal Justice Administration Program does not grant academic credit or course waivers for the internship.

Class Attendance.

Students are required to be present and on time at all regular class meetings and examinations for the classes for which they are registered. Students are required to take exams during scheduled times, and are responsible for all material covered in class. Students representing the university on official business that will require absences must make advance arrangements to be absent from classes at the specific request of their university sponsor. An absence does not excuse a student from the work required by syllabus. It is the responsibility of the student to make arrangements with the instructor prior to missing a class in order to complete any assignments or examinations missed during a university sponsored event.

The Criminal Justice Administration department has adopted the following Attendance Policy which excludes university sponsored activities. If a class meets once a week, the maximum number of absences allowed is two. If a class meets twice a week, the maximum number of absences allowed is four. If a class meets three times a week, the maximum number of absences allowed is six. Any absence over the allowable number results in a ten (10) point reduction in the student’s final grade.
Each class begins on time. If you arrive after the instructor has begun taking class attendance, you will be counted absent unless you personally check with the instructor at the end of class and ask to change the absent to a late. Initially, two late arrivals are equal to one absence. The third time you are late and any time thereafter, a late will be counted as an absence. It is noted that for each absence beyond the total allowed for, you will receive a 10 point reduction from your final grade.

It is the responsibility of the student to read the syllabus for the attendance policy for each class.

Dismissal for Academic Reasons.

1. Failure to maintain “Good Academic Standing” according to the criteria established by the University.

2. Failure to maintain a cumulative average of 2.00 for any student who is in the Criminal Justice Administration Program.

3. Failure to maintain a “C” in all Criminal Justice Administration courses, including the internship (CJ 408 Agency Practicum).

4. Failure to adhere to the Alvernia University Student Code of Citizenship and the Criminal Justice Administration Department Code of Ethics.

Dismissal for Nonacademic Reasons.

1. Failure to respect the rights of others as evidenced by verbal, physical or mental abuse of others, harassment of any kind, assault, or any action which endangers the rights of others.

2. Failure to abide by federal, state, and local laws which prohibit the use, possession, and sale of illegal substances.

Violation of any of the above criteria may result in dismissal of the student from the Criminal Justice Administration Program.

Procedures for Dismissal from the Criminal Justice Administration Program.

When problems concerning academic and professional performance, as well as violation of other criteria are noted by, or brought to the attention of the academic advisor by other appropriate, interested persons, and the situation cannot be resolved by the academic advisor or department chair, the following procedures will be followed:
1. The student will be formally notified of the program’s intent to dismiss the student from the program, including the reason(s) for dismissal by the academic advisor.

2. An additional meeting will be convened with the student, wherein the academic advisor and department chair to attempt to resolve the issue or issues regarding the student’s dismissal; this will occur with seven days after the student has been informed of the intent to dismiss.

3. The student will be notified in writing of the committee’s decision within seven calendar days after the committee has met. The committee may make any of the following recommendations:
   a. Insufficient information to support the dismissal of the student.
   b. Insufficient information to support the dismissal of the student; however, the decision includes suggestions for changes in the student’s performance to abate subsequent requests for dismissal.
   c. Dismissal from the program, permanently or temporarily.
   d. Permanent dismissal requires the student to withdraw from the program immediately.
   e. Temporary dismissal will include criteria that must be met before the student will be reinstated in the program.

Internship

Integration between Curriculum and Internship.

Concurrent classes and internships give students the opportunity to apply theoretical knowledge to their internships, share knowledge of numerous Criminal Justice Administration roles and functions, and engage in problem solving. Students are expected to integrate and apply Criminal Justice Administration theoretical concepts as well as values, knowledge, and skills in the classroom, seminars and the internship.

Integration between Internship and the Profession.

Throughout the internship program, continuous and intensive involvement provides students with a continuity of contact with the Criminal Justice Administration profession. Familiarization with routines and procedures give the student a more solid identification and feeling of belonging with agency, professionals, and the system as a whole.
Scheduling Time for the Internship.

Students are expected to complete their internship in agencies off campus during the same semester that he/she is registered for classes. The exception would be when students are completing their internship during the summer semester, and are not registered for any other courses. During the fall and spring semesters students will need free blocks of time within their academic, personal, and employment schedule to complete internship hours within the internship agency.

Acceptance Deadlines for an Internship (CJ 408).

Students who want to enroll in a Criminal Justice Administration internship in the summer, fall or spring semester of their senior year must be successfully cleared for placement by the last class day of CJ 403 Senior Seminar. Students must submit all of the required clearances to the Criminal Justice Administration office on or before their last day of class in CJ 403.

Internship Requirements.

1. An internship is listed under CJ 408 Agency Practicum and must be completed by all students as part of the Criminal Justice program. The prerequisites for CJ 408 are, as follows: 2.0 GPA overall, 2.0 GPA in Major, senior status (90 or more credits), CJ 201, CJ 221, CJ 275, CJ 403 and permission of instructor.

2. Background clearances are required to enroll in CJ 408. These clearances will be obtained by the student during the semester they are enrolled in CJ 403, prior to signing up for CJ 408. The following clearances are required for CJ 408:
   - Child Abuse History Clearance
   - Pennsylvania Criminal Background Check
   - FBI Clearance and Finger Printing (Cogent System). Clearances can take six weeks to process. Students who have not had continuous residence in the State of Pennsylvania for two (2) years may also be required to complete the FBI Criminal History

The agency may have additional requirements beyond those of Alvernia University. For instance medical facilities now require a physical examination and vaccinations. Contact Criminal Justice Secretary Drena Romberger (610.796.8302) and check the Alvernia University 2014-2015 Course Catalog for additional information regarding background clearances.

3. Applicants to the Criminal Justice Administration Program must understand that in order to meet program outcomes they must complete an internship, CJ 408 Agency Practicum. There is no alternative to this program outcome. A criminal record may preclude a student from obtaining an internship and/or employment in the
Criminal Justice Discipline. Students with criminal records will be advised of other academic study options at Alvernia University.

- Convictions/charges documented on a Pennsylvania Criminal Record Check report will be based on criteria outlined in Acts 169/13.

4. All Alvernia degree-seeking day students - as well as all students enrolled in the programs listed below - are required to have some form of medical insurance. Students under age 65 will be charged the insurance premium for the student health insurance plan unless coverage is waived. If waiving, proof of existing insurance must be submitted by the applicable waiver deadline date. An eligible student's coverage becomes effective 12:01 a.m. on August 18, 2014 for Fall Semester; January 1, 2015 for Spring Semester; May 12, 2015 for Summer Semester and terminates at 12:01 a.m. on August 18, 2015.

5. No student may start a field placement with an outside agency until a fully signed Affiliation Agreement is in place. In addition, the student MUST be fully compliant with all stipulations outlined (e.g. clearances, health requirement, OSHA education) in the contract before their first scheduled day of internship.

Please consult the Alvernia University Catalog for additional information on the background clearances required for field/clinical educational settings.
ACADEMIC OVERVIEW

Student Conduct and Expectations

The Student Code of Citizenship at Alvernia University is aimed at instilling in students the highest principles of integrity and responsibility. Students are expected to demonstrate respect for these principles in the performance of their academic activities. Academic dishonesty, which is a violation of academic integrity, will be dealt with according to the provisions of the Alvernia University Student Handbook.

Alvernia University Student Code of Citizenship

Our Student Code of Citizenship supports our mission to be a rigorous, caring, and inclusive learning community committed to academic excellence, and is inspired by our Franciscan Catholic heritage. To be Franciscan is to respect the dignity of each human person and all creation; to be open to the world and its diversity of cultures, faiths, traditions, races, and peoples; to honor right relationships (by which is meant a harmony in all human relationships, as well as with God and with all of creation); and to seek peace through action for justice.

Therefore, each student shall...

- be honest at all times.
- respect the rights of all people, especially those that pertain to...
  - Physical and emotional safety and security;
  - views and beliefs;
  - pursuit of personal and educational goals.
- treat others with kindness and empathy.
- act in a civil manner in all settings, including but not limited to:
  - on campus: for example, in classrooms and residences, on the fields and in the stands;
  - off campus: especially in our neighborhood and at University events;
  - in cyberspace.
- respect the physical and intellectual property of others, including the University and our neighbors.
- respect the environment, both human-made and natural.
- read, know, and comply with all published University policies, procedures, rules, and regulations.
- cooperate and comply with the requests and directives of University officials as they fulfill their duties.
- comply with all federal, state, and local laws.

Every student has a degree of responsibility for and to the University community. Therefore, when a student encounters a situation in which one or more other students' or guests' behaviors are not consistent with our code, the student is responsible to take one of these actions: address the situation in question so that the behavior ceases, report the
situation to a University official, or, at very minimum, leave the situation. The presence of any student do does not take at least one of those three actions during an incident that violates the Student Code of Citizenship shall be addressed by our Community Standards system.

From time to time, a student may encounter a situation in which it may not be clear whether or which University expectations apply. In such instances, the students would seek guidance from a University official who may reasonably be expected to be able to clarity. When faced with difficult situations, students should ask themselves the following questions:

- Does this action better the community or harm it?
- Is the action both ethical and legal?
- What does my conscience tell me?

Each student is expected to act in ways that fulfill the Student Code of Citizenship both on and off campus beginning with the student’s acceptance of admission to Alvernia University and for so long as the student has a continuing relationship with the University. Allegations of failures to meet these expectations will be addressed by our Community Standards system.

The tenets of the Student Code of Citizenship are purposely expressed in the positive. Examples of specific prohibitions that flow from these positive tenets follow.

Examples of Specific Prohibitions that Flow from the Tenets of the Student Code of Citizenship

Because our Student Code of Citizenship requires students to be honest at all times, all forms of dishonesty are prohibited. Academic honesty (see relevant passage in Academic Policies and Procedures section of the Student Handbook) and honesty in all forms of communication with faculty, staff, administration, and fellow students of the University are of particular concern.

Because our Student Code of Citizenship requires that students respect the rights of all people and treat others with kindness and empathy, all forms of verbal, physical, or psychological abuse, threats of harm to self or others, harassment (including sexual harassment), hazing, sexual contact without effective consent, or actions that endanger others are prohibited. The intimidation or terrorizing of others by racist, sexist, homophobic, or other means are prohibited. Restraint of freedom of movement or expression and/or disruption of the normal functions of the University and its activities are prohibited.

Because our Student Code of Citizenship requires that students act in a civil manner in all settings, acts of misconduct including but not limited to uncivil language, such as excessive swearing; conduct that is disorderly, lewd, or indecent; breach of peace; or that reflect poorly upon the Alvernia University community are prohibited.
Because our Student Code of Citizenship requires that students respect the physical and intellectual property of others, including the University and our neighbors, as well as the environment, both human-made and natural, actual or attempted theft of and/or damage, destruction, vandalism, and all other forms of abuse or misuse of University property or the property of others are prohibited. Also prohibited are unauthorized entry or use of University property and/or premises, including but not limited to unauthorized use or possession of University owned furniture or equipment, and unauthorized possession, use, or duplication of University-issued keys or other means of access to University property or premises. Also prohibited are all forms of misconduct in the pursuit of academic endeavors, in interaction with members of the University community, or at another institution while acting on the University’s behalf.

Because our Student Code of Citizenship requires that students read, know, and comply with all published University policies, procedures, rules, and regulations, failures to comply with all such policies, procedures, rules and regulations are prohibited.

Because our Student Code of Citizenship requires that students cooperate and comply with the requests and directives of University officials as they fulfill their duties, prohibited behaviors include but are not limited to failure to identify oneself and/or produce a University identification card when asked, failure to evacuate a campus building during a fire alarm, failure to surrender or dispose of a substance or item prohibited by our alcohol and other drugs or weapons policies, failure to appear at a Community Standards Conference or otherwise respond as instructed when summoned by a University official, or failure to comply with assigned sanctions resulting from Code violations. A student who does not respond, appear, or act is not excused from disciplinary action by the University.

Because our Student Code of Citizenship requires that students act as responsible citizens and therefore comply with all federal, state, and local laws, violations of all such laws are prohibited. The University will exercise discretion in monitoring this expectation and this prohibition, with particular emphasis on violations that are made knowingly and of one’s own volition, or that reflect poorly on the University community. Of special concern are laws that govern the possession, use, and sale of controlled substances, including but not limited to alcohol and other drugs.

Academic Advisement

It is the responsibility of students to consult with their advisor regarding such issues as class registration, academic progress, and graduation requirements and procedures.

All students at Alvernia University are assigned an advisor in the First Year Seminar Program. At the end of student's freshman year, they will be reassigned an advisor within their major. The responsibilities of the advisor include assisting the student with academic program planning, preparation of requests for any modification of requirements, job or career advice, and interpretation of catalog statements concerning requirements. Nonacademic or partial academic areas such as personal problems or financial needs may be discussed with the advisor at any time/or with any other faculty member. Referrals are made to appropriate programs that will best be able to help the student, e.g., Counseling Services, Financial Aid, and so on.

The procedures for academic advising within the Criminal Justice Administration Program are consistent with the University. The basic premises of the advising policies and procedures of the Criminal Justice Administration Program are that students know what courses are available within the program, what courses they are required to take, what area they wish to emphasize and the amount of time and commitment they desire to put into their study process. Students are advised on possible alternatives and the possible ramifications of their choices.
Students who express interest in other academic fields such as art, business, psychology, theology, and so on, are encouraged to take courses within that discipline.

Faculty members routinely contact students with marginal and/or failing grades as documented on mid semester reports. Conferences are scheduled focusing on identification of learning difficulties and referral is made to appropriate resources. Individual encouragement and support is given.

All Criminal Justice Administration faculty members are responsible for advising students about educational related community experiences. This is accomplished through announcements made in class and the placement of posters on the bulletin boards outside the Criminal Justice Administration office space. Criminal Justice Administration faculty members regularly announce seminars, conferences, workshops, and community programs that are thought to be beneficial to students.

STUDENT RESPONSIBILITIES

Alvernia University’s Department of Criminal Justice Administration is pleased you have chosen to begin or continue your higher education experience. It is important to remember that you have made a choice to attend Alvernia University and it is a privilege, not a right to be here. As a member of the university community, you now have certain responsibilities to yourself, your fellow students, faculty, staff and all other persons you come into contact with. Alvernia University expects you will embrace your new role as a university student and meet your responsibilities with dignity, respect, care and concern for all.

Department-wide student responsibilities

In the interest of maintaining an atmosphere conducive to the teaching/learning process, it is imperative that students maintain appropriate behavior while on the campus, in any class, and attending any university sponsored event on or off campus.

Examples of inappropriate behaviors that will not be tolerated include but are not limited to:

- Willful disobedience
- Profanity or vulgarity
- Disorderly conduct (verbal and/or physical)
- Lewd, indecent or obscene conduct or expression
- Open defiance of authority
- Abuse of University personnel including Security staff, maintenance and
- Harassing or discriminatory behavior based on race, gender, religion, national origin, age, color, sexual orientation, veteran status, disability, or any other status protected by law
- Any type of behavior that detracts from the teaching/learning process in or outside of the physical and/or virtual classroom.

Appropriate dress is required. Shirts and shoes must be worn at all times. Clothing and accessories with offensive language, racial comments or slurs, or other inappropriate language, logos, and/or pictures are unacceptable dress and if worn, the student will be asked to leave the classroom.

Course-related Student Responsibilities

1. E-mail is the official means of communication. Students are expected to check their University e-mail account daily.

2. Students are responsible for thoroughly reading course syllabi and understanding their content.

3. Students should refrain from conversations whenever the instructor or another student is speaking. Any type of distracting or disruptive behavior interrupts (distracts) the teaching/learning process and must be avoided.

Version: Fall 2014
4. The use of cell phones or other electronic devices is **NOT** permitted in the classroom unless the instructor gives permission for the use of the item. In the event a student is expecting a call due to a family emergency, the cell phone/electronic devise must be placed on vibrate. This information must be shared with the instructor prior to the beginning of the class.

5. Students are expected to come to class prepared with homework and reading completed. Academic success within the classroom generally requires two hours of work outside of class for each hour spent in class. Some papers and special projects require even more time outside of class.

6. Students are expected to turn in assignments on time and in the format stipulated by the instructor, to participate in class discussion, and to prepare for tests and examinations.

7. Students are responsible for all materials assigned, as well as all materials covered in class.

8. Students are expected to wait for 15 minutes before leaving if their instructor does not appear for class as scheduled or does not leave instructions regarding meeting of the class.

9. Program and course selection is the responsibility of the student. Failure to meet with the faculty advisor and follow the requirements for completion of the program of study may result in a delay in graduation.
TIPS FOR STUDENT SUCCESS

These are suggestions from faculty to help students do well in their courses and be aware of the general expectations that faculty have for student performance.

Awareness of Policies

Know the course syllabus. Instructors lay out their expectations for student performance in their syllabi. It is always your responsibility to be aware of the requirements and policies for a course. If you are not clear about something, ask!!

Be aware of the University's failure policy. If you fail a course, be sure to understand why you failed so you can take steps to avoid experiencing the same problems in other courses.

Understand when “late drops” are appropriate. Dropping courses after the Add/Drop date in a semester is intended for students who have a serious issue arise not because they may not be doing well in a class. Students will be required to provide supporting documentation for the request.

In the Classroom

Attendance. Attendance is always important to student success. Do not enroll for a class meeting at a time which conflicts with your existing schedule.

Come to class prepared. Assigned readings should be completed before class so you can make informed contributions to classroom discussions and know what questions you have about the material.

Turn off your cell phone. Keeping it out or using it not only takes away attention you should give class, it distracts your fellow students and is just plain bad manners. The world will still be there when you get out of class.

Take written notes during class. Even if an instructor provides you with outlines or PowerPoint slides as a supplement to lectures, just sitting there and listening isn’t enough.

Ask questions in class. Seeking clarification or asking an instructor to expand on a point benefits everyone. If you have questions or want more information about a topic, chances are other students do too.

Answer questions in class. Never be upset or embarrassed that you were wrong. Wrong answers are often better learning opportunities than right answers.

Completing Assignments

Use your instructors as resources. The best resource for understanding what is required for an assignment is your instructor, not fellow students. Other students may misunderstand what is required and pass that misunderstanding along to you.

Do not put off working on assignments. Waiting to work on an assignment until the days before an assignment is due is never a good idea. Give yourself plenty of time to see what questions you have about the assignment and proof read your work.
Break down completing assignments into manageable parts. Break down an assignment into logical components to work on. Setting smaller goals to accomplish one at a time will make any assignment seem less overwhelming.

Turn in all assignments on time. May instructors do not accept late work and may not mention this on their syllabi. Unless otherwise stated on the course syllabus, do not assume that late assignments will be accepted.

Learning and Studying

Take advantage of faculty office hours. Use this time to get to know your instructors (and let them get to know you), clarify their expectations for class, and seek assistance when you need it. Be sure to prepare your questions in advance.

Critically engage with assigned readings. Highlight key points and make notes in the margins. Consider how an assignment fits in with the overall topics covered in the course.

Be an informed citizen. Stay connected to what is happening in your community and the world. Seeing how the things you learn in class connect to the real world makes for better understanding.

Challenge yourself to move beyond just memorizing material. When you learn something in class, try to apply it to other situations and events that happen in your daily life. Use information you learn to truly understand the world around you.

Review class notes regularly. Instead of trying to cram just before an exam, take time each week to read through your notes and make sure you understand the material. Greater familiarity with material makes studying for exams much easier.

Establish a routine for studying. Find both a time of day and location that work best for you for studying on your own. Arrange study groups with other students.
