Young’s Men Evolving Now and W.O.M.E.N. are social clubs focused on providing motivated college men and women the opportunity to spend time with like-minded peers interested in maintaining a positive lifestyle. Members commit to 10 Forums and 6 seminars/ceremonies, providing members opportunities to celebrate the successes and progress of others, assist in transition periods, and provide perspective during the transition to young adulthood.

My name is Andre Young, Founder and Facilitator, of the social clubs Men Evolving Now, Young’s Men Evolving Now, and Women Evolving Now. I have a Master’s Degree in Counseling Psychology with a specialty in Marital and Family Counseling. I have provided a variety of therapeutic services in the Lehigh Valley and Berks County: Individual, Group, Family, and Crisis Therapy. It is important to note that Young’s Men Evolving Now and Women Evolving Now do not provide therapy, however the environment is therapeutic in nature. Our mission is to facilitate brotherhood and sisterhood, in which young adults are comfortable and encouraged to learn from one another; with a focus on becoming inspired and mature men and women, good spouses, partners, and parents, and good children devoted to their own parents and families, as well!

In partnership with the University Life Division, Alvernia University
