Dear Alvernia University Student,

The Health and Wellness Center provides healthcare to students and maintains health records for undergraduate and graduate health requirements as listed by the University and/or departments.

You have registered for a class with an off-campus educational experience (internship, fieldwork, clinical, or student teaching). All students who participate in this class are required to have certain health information on file at the Health and Wellness Center. The type of information required is dependent on the site of your internship. Listed below are the minimum requirements for every site. You will be contacted if your internship site requires additional information.

- **Alvernia Medical History form**
- **Alvernia Immunization form, meet all vaccine requirements**
  - 2 MMR vaccines, both after your 1st birthday
  - 1 Tdap booster within the past 10 years
  - 3 Hepatitis B Vaccines
  - 2 Varicella vaccines or a Titer showing immunity to varicella. (Documentation of disease may be submitted, but some sites may not accept this as proof of immunity.)
  - Meningitis vaccine at or after age 16 (If over 21 at the start of the semester, you are exempt from this requirement.)
- **Student Health Insurance Waiver and upload a copy of your insurance card**
- **Alvernia Tuberculosis Risk Questionnaire**
- **Authorization for Release of Medical Information (obtain from your department, sign and return to Health and Wellness Center)**
- Additional health requirements may also be necessary. Check with the Health & Wellness Center once you have confirmed your off-campus educational experience site.

Please contact the Health and Wellness Center to determine whether you have met the minimum requirements. If forms are required, we will make the forms available to you via Alvernia’s Student Health Portal (https://alvernia.studenthealthportal.com). The login for Alvernia’s Student Health Portal is the same as your Alvernia email login.

Remember, some sites have additional health requirements, you may be asked to submit additional information to meet these requirements. If your site requires a physical exam, the form can be found on the Health & Wellness Center “health center forms” page at http://www.alvernia.edu/student-life/student-services/health/forms.html.

If you have any questions, please contact the Health & Wellness Center at 610-568-1467 or via email at healthwellness@alvernia.edu.

Sincerely,

_Claire Murphy, MD_
Director of Health Services
